Dick Wagner
655 N.W. Territorial Rd.
Canby, OR 97013

Hi Dick,

My, how time flies! I apologise for the delay in filling your
order of April 13... I expect to fill it in about a week. I've
been working on USA V2 of Word-master... and on a "backwords/
forwards" word processor for use with languages such as Hebrew
and Aramaic, for which I have ancient orders. WM V2 for Larken
is now done; the Oliger and Aerco versions are nearly done.

The 4-64K eprom burner fits on the rear of the 2068, or on the
rear of the Oliger expansion board. It is powered by a 2040
printer power supply, or by a 24 VAC transformer available from
Radio Shack. It is based on the Bob Orrfelt programmer, but the
additional 32K and 64K capability made it too large to fit in
the cartridge port as Bob's programmer does.

I'm also thinking about a PAL/GAL programmer... but that's far
in the future!

Thanks for the PLOTTER and for your kind words!

The enclosed sheet is a "preview" of what you'll soon be
getting; WM V2 will include my whole collection of graphic
files; that's one of the reasons why it has taken so long to get
V2 done.

Best Regards,
Jack

WORD MASTER GRAPHIC FILES

The graphic files on this disk are shareware. Thanks to graphic
artists Steve Spalding, Dottie Bundy and William J. McBrine III
for permission to include graphics which they created. In case
you'd like to thank them personally, here are their addresses:

Steve Spalding   Dottie Bundy   William J. McBrine III
1003 McLean   189 Stadium Ave   514 S. Jackson St.
Royal Oak, MI   Ventura, CA   Salisbury, NC
48067   93003   28144

The graphic files generally contain several graphics.
Authorship of graphics is indicated in parentheses as follows:

   (S) Spalding   (B) Bundy   (M) McBrine   (?) Unknown

In case you have shareware graphics that you'd like to add to
this collection, please send them to me on disk or tape, either
as screens or as WM graphic files. Please inform me as to
authorship, if known.
